# Little Busters CE! PSP English setup

1. Getting version number go to settings

2. Click on system settings

#### 3. Click on system information

\*\* Make sure it is version 6.60, if not then follow instructions on <u>http://nicoblog.org/psp/install-pro-cfwon-your/</u> to update your system to specifically version 6.60 and learn how to run PRO CFW 6.60 such that homebrew software can be run (Sony have released a new update above that, don't update to above version 6.60, otherwise you should traverse the internet on how to install CFW on that version).

4. Install Little Busters UMD 1

#### Press O below:

Press X below

- [	Game Data Installation	sor
G	Installation of リトルバスターズ! Converted Edition will start. Do you want to continue?	0
	X Enter OBack	

## 5. Enter USB connection in settings

#### 6. Apply 6.60 Pro CFW

Go and follow the guide on this link: https://nicoblog.org/guides/update-to-6-60-and-install-pro-cfw

#### 7. Download ISO tool

#### Download the following zip:

http://www.mediafire.com/file/wz68rhcbmbio63l/iso\_tool\_cfw\_1981.zip/file

## Copy the iso\_tool\_cfw/PSP folder to PSP SD card root.

### 8. Patch UMD 1 install data

Download the following patch to patch installed files, we will later patch the UMD files after creating an ISO image on the SD card of the game.

Mediafire - Download link: <u>Mediafire - Download LB V0.95 Setup</u> Alternative download link (OneDrive): <u>OneDrive - Download LB V0.95 Setup</u> Click next in the setup until you reach install path.

📲 Little Busters CE PSP V0,95 Englis 💻 🗖 🌉 🎽	
Welcome to the Little Busters CE PSP V0,95 English Patch update program.	
This program allows you to update Little Busters CE PSP V0,95 English Patch on your hard drive/SD drive.	
If you do not wish to update Little Busters CE PSP V0,95 English Patch, click 'Exit' now, otherwise click 'Next' to continue.	
< Back Next > Exit	]

## 9. Start Pro CFW

## Go to Game tab and open memory stick

# Open PRO Update

## Press X

# Press X again

The screen will go blank for 2-3 seconds and restart automatically

There we go, if you go to settings tab -> system settings item -> system information you should see the following version:

## 10. RIP UMD 2 into an ISO

Put the second UMD into your PSP, then go to game tab -> memory stick and open ISO tool.

Press X on [UMD\_DRIVE] and press x on ISO convert in the popup window.

## Call it whatever you want.

#### Press X

#### Then let it complete

#### 11. . Patch ISO

At this point you no longer need the discs in order to play the game, once we have patched the ISO you can start the English patched game from GAME->Memory stick. Now connect your PSP to the USB port of your computer and enter Settings -> USB Connection.

Download and open UMDGen:

<u>Mediafire - UMDGen download link</u> Altenertively OneDrive download link: OneDrive download link - UMDGen.zip
